Step 5: Publish Data

Responsible Party: Each Agency

Each Agency and / or their contracted resources will publish data that passes verification to EPA's Scribe.net system.

Step 6: Serve Data to Stakeholders for Review

Responsible Party: EPA

EPA will provide data Subscriptions from its Scribe.net server to all cooperating agencies. These agencies will be able to view their partners' data in the same Format that they provided for a period of 24hrs.

Step 7: Generate Incident Database and Serve Data

Responsible Party: EPA

After the 24hr review period, EPA will combine all datasets that are published to Scribe.net into a single SQL Server Database on EPA's Orator Server and serve that data out to approved end users (New Mexico Website) using web services.
